

"You got into HOT WATER and SAVED your husband how much?!"

- All Colourbond colours
- Super efficient
- Never run out of hot water!

The award winning Australis LX305 Solar Gas hot water heating system is so smart it saves you money. By feeding water heated by the sun's FREE energy through an instantaneous gas booster, the booster only kicks in when it senses water from the solar storage tank is below your set temperature. That means you save summer and winter. Get into solar hot water today and SAVE! Your husband will love you for it!
