

The Naughty Net Nanny – Part 2

OPENER

All the packets and information carried on the Internet don't travel over wires and optic fiber cables. They travel in a tiny little boat manned by a tiny little crew. The Netboat is a story about that crew.

THEME (30 SEC)

NARRATOR

(Over theme)

Last week, the Captain ordered the NetBoat Crew to put all dirty pictures in the blue trash can; all saucy words, heavy breathing, and disgusting animal noises, in the green trash can and all attempted credit card and personal detail violations, in the red trash can.

Will our visually impaired listeners please note, the blue, green and red trash cans are overflowing. The deck of the Netboat is awash with dirty pictures and the crew is waist deep in unprocessed data.
